

QUALITY POLICY

At Atlas Fibre, we are committed to providing the highest quality composite and plastic materials and parts in the world. We strive to exceed the expectations of our customers through continuous innovation, engineering, and advanced manufacturing techniques.

Our focus is on delivering products reliably and on time, utilizing the best available technology and automation to ensure the highest levels of quality. We are dedicated to building strong, efficient systems that enable us to consistently fulfill our customers' needs. This includes minimizing setup times wherever possible, allowing us to be highly responsive and cost-efficient in our operations.

This will be achieved by:

- Continuously improving our products and process quality by listening carefully to our customers' needs and expectations, while anticipating their future requirements.
- Striving for zero defects with the help of a highly effective quality management and scheduling system.
- A clear focus on setting competitive expectations and then executing on-time delivery (OTD), with the highest quality of what we ship.
- Continuously investing in enhancing the competency of our employees by providing training & development opportunities.
- Going the extra mile by encouraging and promoting innovation throughout our operational processes to improve efficiency and customer satisfaction.
- Following ethical and transparent business practices.
- We shall work as a team to constantly maintain and continually improve our management quality -- using ISO9001:2015, in addition to achieving AS9100D by December of 2024.

Max Egan

CEO of Atlas Fibre
